How Women Would Vote.

Were women allowed to vote, every one to the land who has used Dr. Pierce's "Favorite Prescription" would vote it to be an unfailing remedy for the diseases peculiar to her sex. By druggists.

What Physicians Say

SAN LEANDRO, CAL.
Dr. R. V. PIERCE, Buffalo, N. Y.—
DEAR SIR: I have employed your "Pleasant Purgative Pellets" in my practice for the last few years. I now use no other alternative or cathartic medicines in all chronic derangements of the stomach, liver, and bowels. I know of nothing that equals them.

J. A. MILLER, M. D.

Cash System! Cash System!

Since my first announcement that I proposed to place my business on a cash basis on Jan. 1st, I have received much encouragement from many of my customers. They appreciate the fact that it is a fair system, as all pay cash or its equivalent, they do not, as under the credit system, have charged to them the loss suffered by some debtor who has "skipped" his account, and frequently the country. Also the cash system has banished influences, there being few circumstances to create difficulties between the dealer and his customers, such as dunning, refusal of credit, suing, etc. I have in reserve a good proof that it pays to buy for cash. It is a price list, which will be out January 1, 1883. Send or call for one.

Respectfully,
JERRY SCHWELING.

GOV. ADAMS' INAUGURAL.

Gov. Adams' inaugural is a brief, yet interesting document, containing some suggestions worthy of heed. He declares that with the exception of such saving as can be made in the maintenance of the Asylum, Prison, Orphan's Home, the State's expenses are as low as can be expected. He asserts that it is to the county and municipal governments we must look for the reduction of expenses and relief from the burden of taxation. The report of the Controller shows for the year 1891 the State tax on all property (not including the net proceeds of mines) was in round numbers \$255,000, while the county tax amounts to \$675,000. For the year 1892 the same authority shows that the State's portion of last year's taxes were in the proportion of nine to thirty-one of the amount of taxes received. The Governor argues against the demonization of silver, fearing that Congress is liable to legislate against the mining industry. He favors a State Board of Equalization, and thinks there is ample room for legislation upon the subject of fares and freights. He thinks Nevada ought to have all of California east of the Sierra Nevada mountains annexed to it, but knows full well that California will never cede it. After stating that "The Chinese must go," he concludes with a compliment to Gov. Kinkaid.

State Treasurer Polk, of Tennessee, is a first-class scoundrel. There is nothing of the petty larceny thief in his composition. He has stolen at least \$400,000 from the treasury. He is fifty-one years old, a graduate of Wesleyan College, and served for years on the frontier. He was a Captain of artillery in Cheatham's division in the Confederate army, and lost a leg at the battle of Shiloh. He afterwards served on the staff of General Leonidas Polk, to whom he was related. After the war he resided on a farm near Bolivia, Tennessee, until elected Treasurer, six years ago. He was a nephew of the late President Polk.

It is the intention of the New York dynamite Communists under the leadership of Justice Schwab to arrange a reception to Herr Johan Most by President Arthur. When Gen. Grant ignored Dennis Kearney, the "Sand Lot" mogul, he set an example worthy to be considered by Mr. Arthur in the present attempt to insult American institutions.

The money order business of the Post-office Department for the fiscal year was \$120,000,000. That is a fair banking business, made up as it is of small amounts. It represents a large convenience to a multitude of people.

Jabal A. Early is to deliver a lecture in Baltimore, on the 22d of February, on Jackson's campaign against Pope, in August, 1862, and it is intimated that the address may have a peculiar interest to the friends of Fitz John Porter.

"Come Back Home and Shoulder Your Guns" is the demand of the German Government to its subjects abroad.

Kinkaid and Adams gave each other a good deal of "tally."

The State tax for 1893-4 ought not to exceed 75 cents.

USELESS LABOR.—A Carson boy is said to have gone crazy from study in vacation. He sat up late at night perusing his geography in an unsuccessful attempt to find three of the creeks mentioned in the River and Harbor bill. He forgot that there are no rivers in Nevada, and that the "water flowing from the Suto Tunnel is the largest stream in the State."—Leader.

Dr. Pierce's "Golden Medical Discovery" has become so thoroughly established in public favor that were it not for the forgetfulness of people it would not be necessary to call attention to its power to cure consumption, which is scrofula of the lungs, and other blood diseases, as eruptions, blotches, pimples, ulcers, and "liver complaint."

THE NEVADA PRESS. Views and Opinions Upon Current Topics and Events.

AN EFFICIENT OFFICER. State Controller Hallock submitted his report to the Governor and to the Legislature on the 2d inst. This is far in advance of the usual time required, but Mr. Hallock and his efficient Deputy worked about fifteen hours a day and kept even with the counties in their returns to the State. While we are speaking of this matter, says the Austin Reville, it would not be out of place to refer to Mr. Hallock's record as a public officer. He has proven himself a clear-headed, honest and fearless official, and one who studies well the State's interests. He has been a vigilant guardian of the Treasury, and no man can hope to get an illegal bill audited. His well-thumbed law books attest the fact that he wants to know the legal status of every bill presented. As an illustration of his way of doing things the following will suffice. It had been customary to give the President pro tem. of the Senate and the Speaker of the Assembly \$125 extra each session. Two years Mr. Hallock vetoed this bill because the Constitution provides that the pay of no official can be lowered nor increased during his term of office, and the Supreme Court sustained him. This lack on the State Treasury was thus effectually stopped. The people of Nevada did well in keeping Mr. Hallock in the Controller's office.

A LOW INTEREST RATE. While San Francisco and the business centers East are glutted with capital seeking investment at merely nominal percentage, says the Eureka Sentinel, here in Nevada to borrow money, in many instances, is almost equivalent to going into bankruptcy. One of the most serious commercial difficulties that are experienced by the people of this State is the impossibility of obtaining loans of money for reasonable times at moderate rates of interest. The rate of interest the world over is chiefly dependent upon the reliability and permanency of the security offered. There is money enough that can be brought into the country for investment. The amount of real property in this State, the value of which is not subject to great and sudden depreciation in values, is very small. Perhaps a larger per cent. of the property of the State is personally than in any other section of the country. Under the laws, at present, personal property is no security except accompanied by delivery of possession; and a mortgage of it, without delivery of possession, is void as against third parties. In numerous instances parties that have personal property of considerable value are compelled to pay exorbitant rates of interest, because the possession of the personal property is necessary for the continuance of their business, or sacrifice their property and withdrawal from business on account of having no acceptable security upon which to raise the money at a rate of interest which their business can afford. In almost every State in the Union chattel mortgages are authorized by law, requiring them to be acknowledged and recorded in a manner similar to that of mortgages of real property, and upon them a large amount of money has been loaned at reasonable rates, usually in small sums. Money so borrowed is almost invariably sought for by persons in trade or business, and finds its way once into circulation, and aids materially in relieving those who are most oppressed by a stringent money market. At this time when the necessity of a low rate of interest is most apparent, is not the subject of a chattel mortgage law worthy of the consideration of our legislators? We think so; and we expect some member of the Legislature, who appreciates the condition of things referred to, to give it his attention.

THE DRUMMER LAW. Although the provisions of the statutory law was considered good at the time of the passage of the Act, we venture the assertion, says the Carson Tribune, that there is not a city or town in Nevada where the people would not rise en masse to demand its repeal, or at least amendment. To the small towns the law works a great injury, for the drummer is proverbially generous; their custom at hotels, saloons and livery stables being more remunerative than that of any other class of men. It has cost the several counties much money in trials for the infraction of the ridiculous law, and but few cases of conviction have occurred, moreover, the law is evaded in every conceivable way, whereas if the drummer was permitted to have his way as before the passage of the Act, he would leave dollars in the State where he now leaves cents, and far more benefit would inure to the State than compelling him to pay a license in every town where he may ply his business. We hope the law may be repealed and if our legislators have consulted their constituents on the matter it certainly will be, for from all parts of the State we have heard the desire expressed. Dry goods men want its repeal; saloon keepers desire it, and in fact every class of business men are in favor of it.

THE SILVER QUESTION. Mr. Waite, Representative in Congress from Connecticut, in the early part of last month, introduced the following: Providing that no further purchases of silver shall be made by the Secretary of the Treasury, nor standard silver dollars coined until the number of such dollars, whether the property of the United States, or held for the redemption of silver certificates, shall be reduced to \$50,000,000.

The Austin Reville is of the opinion that this resolution evidently means the demonization of silver by the country which is the chief producer of the metal, with the destruction of an industry

upon which depends the prosperity of the people of the State of Nevada and Colorado, of the Territories of Montana, Idaho, Utah, New Mexico and Arizona. The Mining Record says he who does not see and comprehend this must be set down either as a doctrinaire utterly impregnable to aught of reason which does not consort with his theories, or utterly blind to stark-naked probabilities. With the death of the industry of silver mining in the broad realm which essentially is vitified by it at present, will be coupled disastrous consequences to the great sums of Eastern capital invested in the thousands of miles of railways which thread Colorado and New Mexico, Utah and Montana, Idaho and Arizona. Nor would the ill consequences end there; the many large businesses on this side of the Mississippi river which are bound up directly and indirectly with the prosperity of the communities that have grown up in our vast scope of mining territory would be wounded unto death, and a serious blow would be given to that phenomenal prosperity of the American people, due in no small degree to the silver mining industry in connection with that industry. But for silver mining a wide part of the national territory now threaded with railways, and inhabited by considerable communities animated by many industrial forces which, day by day, add incalculably to the general wealth and progress of our people, would at this time be mere waste uninhabited land.

THE RAILROADS. A bill providing for the reduction of fares and freights will be presented to the State Senate in a day or two. The Carson Index hopes it will be a fair and reasonable bill, looking to the best interests of the people, with no unreasonable and complicated provisions against corporate enterprises; devoid of buncombe for political brokers and lobbyists to speculate with. There is plenty of room for legitimate legislation on this all important subject, and the Daily Index hopes to see some provision made during this session to relieve the people from the unjust and disproportionate exactions imposed upon them by the greed of soulless corporations. Whoever introduces and supports a measure of this character, irrespective of party or political affiliations, shall have the hearty support and co-operation of the Daily Index. Let the people of Carson and the State generally see to it, that no undue interference be permitted by the representatives of the Central Pacific or our local roads. We have had quite sufficient of this character of interference and tampering with our Legislature, and past experience should arouse the people to sufficient alarm to prevent the recurrence of this character of lobbying to prevail.

THE SALARY LAW. There will be a determined effort made, says the Reno Gazette, to repeal the salary law at this session of the Legislature. Nearly every county at the East will strongly urge a change, contending that it has worked a great hardship on taxpayers. Last January the Gazette took the trouble to go over the county records for two years. One year of the time reviewed was while we were working under the fee system, and the other under the salary law. We found that in 1891 the county had a balance of \$7,979 in favor of the present system. Members of the Legislature wishing to review our statement, made in detail at that time, with editorial comment, will find the paper on file at the State Library. It was published in Vol. XII, No. 90, on January 18, 1892, and will justify a careful examination. Ormsby county has saved in two years about \$15,000 by this law and before its repeal County Clerks of the several counties should send their delegations an itemized account of the work performed and cost of doing it for, say, four years. In that way the Legislature can act understandingly and if the law does, as is claimed, work a hardship it can be repealed or modified. Washoe is satisfied and would regret to see it modified.
